when

16 — 17 June

where

Dept. of Chemical Sciences
University of Padova,
Via Marzolo 1**ABOUT THE WORKSHOP**

Two days dedicated to **X-ray Photoelectron Spectroscopy (XPS)** — a powerful surface-analysis technique delivering quantitative elemental and chemical-state information from the top few nanometers of materials. A program of presentations, applications, and a live demonstration of the **Thermo Scientific™ ESCALAB™ QXi**.

KEY TOPICS

**Surface Characterization · Chemical State Analysis · Elemental Quantification
Thin Films · Catalysis · Semiconductors · Energy Storage · Advanced Coatings**

SCIENTIFIC COMMITTEE

Dr. Marzio Rancan
CNR — ICMATE, Padova
Dr. Gregorio Bottaro
CNR — ICMATE, Padova
Prof. Lidia Armelao
CNR — DSCTM and University of Padova
Dr. Paolo Carrozzo
G. Gambetti Kenologia Srl

CONFIRMED SPEAKERS

Prof. Albano Cossaro
Dr. Mattia Cattelan
Dr. Federica Bondino
Prof. Gianlorenzo Bussetti
Prof. Rosaria Picca
Dr. Giorgio Speranza
Dr. Marzio Rancan
Dr. Letizia Savio
Prof. Marzia Fantauzzi
Prof. Mark Baker

Under the patronage of

CNR | Dipartimento Scienze Chimiche
e Tecnologie dei Materiali
